Public Comment

We want to know what you think!

2008-2012 TIP Amendment - ARRA

Subject: W. Nursery Road

Comments: As the Gateway connecting the BWI Hotel District, a non-designated Transit-Oriented Development, to both BWI Airport and MD 295 for travelers heading to both Baltimore and DC, this short stretch of road is used by numerous supply trucks for hotels, buses and shuttles traveling to and from the BWI terminal, and connects to and from large employment and business parks nearby. It is in a state of disrepair, representing our region is a poor light to travelers. It would be wonderful to have the road surface repaired, instead of the occasional pothole patch that has been the norm.
