

VISION • 2030

SHAPING THE REGION'S FUTURE TOGETHER

Values Questionnaire Vision 2030 Regional Public Meetings

The following questionnaire is based on statements of values that have been prepared by the four Vision 2030 subcommittees on Social Equity, Economic Development, Environment, and Government and Public Policy. The statements of values represent fundamental and basic outcomes that the subcommittees want to see addressed by Vision 2030. The full text of the deliberations of the subcommittees is included under the heading Values and Principles in the foldout you received at registration.

In filling out the questionnaire, keep in mind the ideas presented and ranked by your group during the brainstorm. Ask yourself, "Which of these principles will best address and support the ideas I care about the most?" After you complete the questionnaire return it to your facilitator.

Please indicate your degree of support of the statements of values listed below.

1. Communities in all jurisdictions of the region should include housing opportunities for all people that maximize diversity of racial, social and economic backgrounds and minimize segregation or concentration of population by race or class.
 Strongly Disagree Disagree No Opinion Agree Strongly Agree
2. Opportunities for quality education at all levels, from early childhood to life-long learning, should be available to all our people.
 Strongly Disagree Disagree No Opinion Agree Strongly Agree
3. The region should have a highly trained, educated and flexible workforce.
 Strongly Disagree Disagree No Opinion Agree Strongly Agree
4. The region should have a vibrant, dynamic and economically and culturally strong core.
 Strongly Disagree Disagree No Opinion Agree Strongly Agree
5. Each person should have reasonable and safe access from home to a job that pays a family-supporting wage with benefits, to educational and retail facilities, to open space and recreation, to quality medical care, and to personal and social services.
 Strongly Disagree Disagree No Opinion Agree Strongly Agree
6. The region should achieve universal mobility through a comprehensive, multi-modal transportation system.
 Strongly Disagree Disagree No Opinion Agree Strongly Agree
7. The region should have strong public policy mechanisms that balance environmental protection, manage future growth and redevelopment and generate economic vitality.
 Strongly Disagree Disagree No Opinion Agree Strongly Agree
