**WELCOME AND INTRODUCTIONS:** Mr. Kevin Newton opened the meeting at 10:00 A.M. and welcomed everyone to the annual summer meeting of the signal subcommittee in Howard County.

**REVIEW OF MINUTES FROM SEPTEMBER 21<sup>ST</sup> MEETING:** Minutes from the April 25th meeting were reviewed and approved without change.

**AEGIS ITS SIGNAL MAINTENANCE SOFTWARE:** Doug Henderson and Rodney Mathis from AEGIS ITS described and demonstrated their signal maintenance management software teamEpro™. Information about this system is provided in the attached handout and online at [www.aegisits.com](http://www.aegisits.com). If you need additional information, please contact Doug Henderson at [DHenderson@aegisits.com](mailto:DHenderson@aegisits.com).

**REGIONAL TRAFFIC SIGNAL FORUM:** Bala Akundi provided a quick update on the planning efforts to hold the regional signal forum. Because of the economy and travel restrictions, there is some question about how many will actually be able to attend. We will continue to work on the estimates and look for sources of funding to make this possible. The committee provided several suggestions on topics that could be covered at the next forum. Bala will look for availability at the Maritime Institute in November 2010.

**OTHER BUSINESS:**

The next meeting will be held on September 20, 2010. The meeting adjourned around 12:00 PM.
