  - Planned
- Existing bicycle and shared-use facilities are available to [view here](#) and [download here](#)

# BMC Regional Bicycle Facility Inventory

# BMC Regional Bicycle Facility Inventory

## Current categorization:

---

Shared-use path or transportation trail

---

Separated bicycle lane

---

Bicycle lane

---

Signed designated bicycle route

---

Sharrows or marked shared lane

---

# MDOT Bicycle Facility Inventory

- Linear Referencing System (LRS) vs. Geographic Information System (GIS)
- Asset management; existing facilities only
- Critical to bicycle level of traffic stress (LTS) calculation and developing a routable network
- Data fields based on local and regional bike facility data

# MDOT Bicycle Facility Inventory

- Shared-use paths
- Protected bike lanes
- Standard bike lanes
- Null value (shared lanes, shoulders)

# MDOT Bicycle Facility Inventory

- Sub-Type Field
- Side of Roadway (both, left, right)
- Traffic Flow (one-way, two-way)
- Vertical Separation (yes, no)

# Next Steps

<b>Nov 2023</b>	<ul style="list-style-type: none"><li>• BPAG members discuss format of regional bicycle facility inventory</li><li>• BPAG members vote on format:<ul style="list-style-type: none"><li>➤ During BPAG meeting</li><li>➤ One or two weeks after meeting</li><li>➤ At the January BPAG meeting</li></ul></li></ul>
<b>Dec 2023</b>	BMC staff meets with planners and GIS staff about updates to the regional bicycle facility inventory
<b>Jan/Feb 2023</b>	Update the regional bicycle facility inventory
<b>~March 2023</b>	Updated regional bicycle facility inventory used in Vision for a Regional Bicycle Network project
