Governor Hogan Announces More Than $12 Million in Highway Safety Grants to Over 90 Agencies, Organizations

Will Fund Efforts to Eliminate Fatalities on Maryland Roadways

ANNAPOolis, MD—Governor Larry Hogan today announced more than $12 million in federal highway safety grants as part of a statewide focus to prevent motor vehicle crashes and eliminate roadway fatalities.

“With traffic already back to pre-pandemic levels, it is even more important that we continue working to make our streets and roadways safer and more accessible,” said Governor Hogan. “This critical funding will help us prevent crashes and fatalities all across the state, and ensure highway safety remains a top priority.”

The funds will be dispersed Oct. 1 by the Maryland Department of Transportation Motor Vehicle Administration’s (MDOT MVA) Highway Safety Office to more than 90 organizations and law enforcement agencies. In July, the Hogan administration announced nearly $1 million in state funds focused on pedestrian and bicyclist safety initiatives.
Local Strategic Highway Safety Plans, Look Alive
