Regional Goals

Improve Accessibility

Identify and support multimodal options and systems that promote equity, are resilient and sustainable, and enable all individuals to reach their destinations safely and seamlessly.

Increase Mobility

Help people and freight to move reliably, equitably, efficiently, and seamlessly.

Improve System Safety

Reduce the number of crashes, injuries and fatalities experienced by all users of the transportation system toward meeting Zero Deaths Maryland.

Improve and Maintain the Existing Infrastructure

Improve the conditions of existing transportation facilities; systematically maintain and replace transportation assets as needed.

Implement Environmentally Responsible Transportation Solutions

Pass on to future generations the healthiest natural and human environment possible.

Improve System Security

Provide a secure traveling environment for everyone; improve the region's ability to respond to natural and human-caused disasters.

Promote Prosperity and Economic Opportunity

Support the vitality of communities and businesses, opportunities for workers, and the movement of goods and services within and through the region.

Foster Participation and Cooperation Among All Stakeholders

Enable all interested and affected parties to participate and cooperate to find workable solutions.

Promote Informed Decision Making

Ensure that adopted transportation policies and performance measures guide the regional decision-making process.
