Robinson Mill Road Bridge #154 over Broad Creek

TIP ID	15-1401-13	Year of Operation	2019
Agency	Harford County	Project Type	Bridge repair/deck replacement
Project Category	Highway Preservation	Functional Class	Local
Conformity Status	Exempt	Physical Data	2 to 2 lanes
CIP or CTP ID(s)		Est. Total Cost	\$1,815,000

Description:

This project is to replace the entire bridge that carries Robinson Mill Road over Broad Creek. The two-lane approach road on both ends of the bridge includes horizontal curves that restrict sight distance across the bridge. Three foot shoulders planned on both sides of the road.

PE funds were in a previous TIP.

Justification:

The existing bridge was closed to traffic on March 10, 2017. The beams and deck are severely deteriorated and need to be replaced. This project is consistent with the Master Planning goal of maintaining a safe and adequate transportation system to serve existing and future populations.

Amendment: This amendment updates Surface Transportation Block Grant funds for the construction phase in FY 2019. The increase reflects the total cost for construction now that the project is ready for advertisement. Funds had been budgeted for construction in previous TIPs but the project was delayed due to difficulties with land acquisition. STBG funds in FY 2019 are now \$1.185 million along with \$380,000 in matching funds. The estimated total cost remains unchanged at \$1.815 million. The year of operation shifts from 2018 to 2019.

Connection to Long-Range Transportation Planning Goals:

- 1.C Improve System Safety -- Eliminate hazardous or substandard conditions.
- 2.A Improve and Maintain the Existing Infrastructure -- Improve the condition of roadway systems (pavement, bridges, tunnels).
