BALTIMORE METROPOLITAN PLANNING ORGANIZATION

BALTIMORE REGIONAL TRANSPORTATION BOARD

RESOLUTION #21-16

ENDORSing PROJECTS FOR FUNDING UNDER THE SECTION 5310 ENHANCED MOBILITY FOR SENIORS AND INDIVIDUALS WITH DISABILITIES PROGRAM OF THE FEDERAL TRANSIT ADMINISTRATION (FTA) CONSISTENT WITH TRANSPORTATION PLANS AND POLICIES IN THE BALTIMORE REGION

WHEREAS, the Baltimore Regional Transportation Board is the designated Metropolitan Planning Organization for the Baltimore region, encompassing the Baltimore Urbanized Area, and includes official representatives of the cities of Annapolis and Baltimore, the counties of Anne Arundel, Baltimore, Carroll, Harford, Howard, and Queen Anne’s, as well as representatives of the Maryland Department of Transportation, the Maryland Department of the Environment, the Maryland Department of Planning, the Maryland Transit Administration, and Annapolis Transit; and

WHEREAS, the Baltimore Regional Transportation Board (BRTB), the metropolitan planning organization (MPO) for the Baltimore region, has the responsibility under the provisions of the Fixing America’s Surface Transportation Act (FAST Act) for developing and carrying out a continuing, cooperative and comprehensive transportation planning process for the metropolitan area; and

WHEREAS, the FAST Act continues to support the new Enhanced Mobility for Seniors and Individuals with Disabilities Program. This review follows Federal Transit Administration (FTA) Circular 9070.1G issued on June 6, 2014. The new Section 5310 program authorizes four types of projects: 1) public transportation projects planned, designed, and carried out to meet the special needs of seniors and people with disabilities when public transportation is insufficient, unavailable or inappropriate; 2) public transportation projects that exceed the requirements of the Americans with Disabilities Act (ADA) of 1990; 3) public transportation projects that improve access to fixed route service and decrease reliance by people with disabilities on complementary paratransit; and 4) alternatives to public transportation that assist seniors and people with disabilities with transportation; and

WHEREAS, projects funded by the Enhanced Mobility Program must respond to strategies in a “locally developed, coordinated public transit - human services transportation plan.” On December 17, 2019, through Resolution #20-9, the Baltimore Regional Transportation Board approved an updated version of the Baltimore Area Coordinated Public Transit – Human Services Transportation Plan; and

WHEREAS, on September 10, 2020 the MDOT Maryland Transit Administration announced a Solicitation of Proposals for the Section 5310 Fiscal Years 2022 and 2023 grant program; and

WHEREAS, applicants had until November 30, 2020 to submit requests for the Section 5310 Grant Program. Applications come from private non-profit organizations that provide transportation services to the elderly and individuals with disabilities in the Baltimore region. Applications were reviewed according to four criteria: 1) extent and urgency of local needs (10 points), 2) coordination and cooperation (20 points), 3) vehicle utilization (10 points), and 4) fiscal and managerial capability (10 points); and
NOW, THEREFORE BE IT RESOLVED that the Baltimore Regional Transportation Board as the Metropolitan Planning Organization for the Baltimore region endorses eighteen applications (Attachment 1) for funding under the Federal Transit Administration Section 5310 Grant Program.

I HEREBY CERTIFY that the Baltimore Regional Transportation Board as the Metropolitan Planning Organization for the Baltimore region approved the aforementioned resolution at its January 26, 2021 meeting.
