SECTION 00400 - FORM OF PROPOSAL

DATE: 6/5/2015

SOLICITATION TITLE: Supply and Installation of HVAC Filters

BCPS BID NUMBER: MWE-847-15

BID SUBMITTED BY: Air Filter Maintenance, Inc
(Company Name)

SUBMITTED TO: Baltimore County Public Schools
Office of Purchasing
6901 Charles Street, Building "E", 1st Floor
Towson, Maryland 21204

The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with the OWNER in the form included in the Contract Documents to complete all Work as specified or indicated in the Contract Documents for the Contract Price and within the Contract Time indicated in this Bid and in accordance with the Contract Documents.

BIDDER has examined the site and locality where the Work is to be performed, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress, or performance of the Work and has made such independent investigations, as BIDDER deems necessary.

Rui Matos 6/5/15
(Signature of Bidder) (Date)

PRICE PROPOSAL - INSTRUCTIONS:

BIDDERS ARE REQUIRED TO SUBMIT PRICING FOR EVERY "ITEM" CONTAINED WITHIN THIS FORM OF PROPOSAL.

BIDDERS NOT RESPONDING TO EVERY "ITEM" SHALL BE DEEMED NON-RESPONSIVE.

If a Bid amount contains contradictory terms, handwritten terms prevail over typewritten terms, and words prevail over numbers. The dollar amount expressed in words shall govern.

STATE OF MARYLAND ANTI-BRIBERY AFFIDAVIT

I HEREBY CERTIFY that

1. I am the President and the duly authorized representative of the firm of Air Filter Maintenance, Inc. who address is 118 N. KATSON ST, BALTIMORE MD 21229 and that I possess the legal authority to make this affidavit on behalf of myself and the firm for which I am acting.
2. Except as described in paragraph 3 below, neither I, nor to the best of my knowledge, the above firm, nor any of its officers, directors, or partners, or any of its employees directly involved in obtaining contracts with the State or any county, bi-county, or multi-county agency, or subdivision of the State have been convicted of, or have pleaded nolo contendere to a charge of, or have during the course of official investigation or other proceeding admitted in writing or under oath acts or omissions committed after July 1, 1997, which constitute bribery, attempted bribery, or conspiracy to bribe under the provisions of Article 27 of the Annotated Code of Maryland or under the laws of any state or federal government.
3. (State "none" or, as appropriate, list any conviction, please, or admission described in paragraph 2 above, with the date; court, official, or administrative body; and the sentence or disposition, if any.)

I acknowledge that this affidavit is to be furnished to the requesting agency, to the Secretary of Budget and Fiscal Planning of Maryland, and, where appropriate, to the Board of Public Works and the Attorney General under 16-202, S.F. of the Annotated Code of Maryland. I acknowledge that if the representations set forth in this affidavit are not true and correct, the State may terminate any contract awarded and take any other appropriate action. I further acknowledge that I am executing this affidavit in compliance with 16-203, S.F. of the Annotated Code of Maryland, which provides that certain persons who have been convicted or have admitted to bribery, attempted bribery, or conspiracy to bribe may be disqualified, either by operation of law or after a hearing, from entering into contracts with the State or any of its agencies or subdivisions.

I do solemnly declare and affirm under the penalties of perjury that the contents of this affidavit are true and correct.

STATE OF MARYLAND TAX CERTIFICATION

At the time a bid or proposal for a State procurement contract of \$10,000 or more is submitted, the bidder or offeror shall certify to the procurement officer that the bidder or offeror has paid all taxes, unemployment insurance contribution, reimbursement payments, and interest not barred by limitations and payable to the comptroller, the Department of Assessments and Taxation or the Department of Economic and Employment Development or has provided for payment in a manner satisfactory to the unit responsible for collection; and if the bidder or offeror is a vendor of tangible personal property, the bidder or offeror possesses a valid sales and use tax license under Title 11, Subtitle 7 of the Tax - General Article.

I acknowledge that this certificate is to be furnished to the requesting agency, and to the Comptroller of the Treasury, Sales and Use Tax Division under 13-222, S.F. of the Annotated Code of Maryland. I acknowledge that, if the representations set forth in this certificate are not true and correct, the State may terminate any contract awarded and take any other appropriate action.

BIDDERS SHALL PROVIDE STATE OF MARYLAND TAX CERTIFICATION NUMBER ON THE LINE DIRECTLY BELOW:

I do solemnly declare and affirm under the penalties of perjury that the contents of this certificate are true and correct.

designation. Multiple designations shall be so noted on the form.

SMALL BUSINESS ENTERPRISE AFFIDAVIT

The undersigned does hereby make the following Affidavit. I affirm that my company or I am a Small Business Enterprise (SBE). A Small Business is a for-profit business, other than a broker, that meets the following criteria:

- .1 it is independently owned and operated;
- .2 it is not a subsidiary of another business;
- .3 it is not dominant in its field of operation;
- .4 its wholesale operations did not employ more than 50 persons, and its gross sales did not exceed an average of \$2,000,000 in its most recently completed 3 fiscal years;
- .5 its retail operations did not employ more than 25 persons, and its gross sales did not exceed an average of \$2,000,000 in its most recently completed 3 fiscal years;
- .6 its manufacturing operations did not employ more than 100 persons, and its gross sales did not exceed an average of \$2,000,000 in its most recently completed 3 fiscal years;
- .7 its service operations did not employ more than 100 persons, and its gross sales did not exceed an average of \$2,000,000 in its most recently completed 3 fiscal years; and
- .8 its construction operations did not employ more than 50 persons, and its gross sales did not exceed an average of \$7,000,000 in its most recently completed 3 fiscal years.
- .9 BCPS reserves the right to request tax documents to support such a claim.

SMALL AND MINORITY BUSINESS ENTERPRISE UTILIZATION AFFIDAVIT

The undersigned as a contractor does hereby make the following Affidavit. I acknowledge the Small Business Enterprise (SBE) and Certified Minority Business Enterprise (MBE) participation goal of fourteen (14) percent for the contract with the Baltimore County Board of Education, and commit to make a good faith effort to achieve this goal. In the solicitation of subcontract quotations or offerors, all SBE and MBE subcontractors and suppliers were provided not less than the same information and amount of time to respond to the solicitations as non-Small Business Enterprise and Minority Business Enterprise subcontractors.

The solicitation process was conducted in such a manner so as to otherwise not place SBE and MBE subcontractors at a competitive disadvantage to non-SBE and MBE subcontractors.

I UNDERSTAND THAT THE FAILURE TO SUBMIT THIS AFFIDAVIT TO THE BOARD OF EDUCATION MAY RESULT IN A DETERMINATION THAT THIS BID IS NON-RESPONSIVE.

I understand that I must submit the SBE/MBE documentation described in the bid documents at the time of bid. Furthermore, I understand that failure to comply with this contract requirement may result in a determination that my bid is non-responsive and therefore would not be awarded to me.

I understand and agree that, if awarded the contract, we will implement the provisions of the above paragraph with respect to subcontracts to be let after the award of the contract, but that such subcontracts will not be let until the Board of Education has reviewed and approved the SBE/MBE submittals.

I understand and agree that, if awarded the contract, I will and do hereby authorize representatives of the Baltimore County Board of Education to examine, from time to time, the books, records and files of this organization to the extent that such data relates and pertains to the affirmative action pursuant to this contract.

I do solemnly declare and affirm under the penalty of perjury that the contents of the foregoing document are true and correct to the best of my knowledge, information, and belief.

ADDENDUM NUMBER 1

DATE: June 1, 2015
BID NAME: Supply and Installation of HVAC Filters
BID NUMBER: MWE-847-15
DUE DATE: **June 9, 2015**
DUE TIME: **2:00 PM**
PUBLIC OPENING: 10 minutes after due time
TOTAL PAGES: 2

The following revisions and responses to questions are made to the original bid document. This addendum forms a part of the Contract Documents and modifies the Original Bidding Documents accordingly and as noted below. Acknowledge receipt of this Addendum in the space provided on the Bid "Addenda" form.

GENERAL QUESTIONS

1. What type of pleated filters do they want (LPD or Value-Pleats)?

BCPS Response: Please review Part III, Section 2.0 Filter Specifications, paragraph 2.2.2.

2. Fiberglass – no metal, one metal or two metal?

BCPS Response: We don't use fiberglass filters

3. Metal Washable – Aluminum or Galvanized

BCPS Response: Please review Part III, Section 2.0 Filter Specifications, paragraph 2.5.1

4. Poly – do you want me to quote the 11250's with no metal? Remember, there are no double or triple sizes in the 11250 filter.

BCPS Response: Please review Part III, Section 2.0 Filter Specifications, paragraph 2.4.2

5. On the Bag Filters, I will need to know the Efficiency and how many pockets?

BCPS Response: Please review Part III, Section 2.0 Filter Specifications, paragraph 2.1.3 and 2.1.4

6. On the Box Filters, I will need to know the Efficiency?

Rec'd 6-1-15
R. M. M. M.

BCPS Response: Please review Part III, Section 2.0 Filter Specifications, paragraph 2.3.3

SPECIFICATIONS

1. Modifications to the bid specifications are as follows:

- **ADD** Part II, Section 8.0 Delivery/Pick-Up, Paragraph 8.3.1: Delivery hours for Anne Arundel County Public Schools will be 7:30 a.m. until 2:30 p.m.

The following Addendum specifications are to be incorporated into the documents. Only information included in this narrative has changed. Some information has been omitted for clarity only. The specifications should be used in conjunction with the other construction documents. If a change requires additional work or changes to include but not limited to demolition, schedules and/or enlarged details the contractor shall be required to make these changes as part of the base bid contract.

BALTIMORE COUNTY PUBLIC SCHOOLS

Dr. S. Dallas Dance, Superintendent

6901 Charles Street Towson, Maryland 21204-3711

INVITATION FOR BIDS:

The Board of Education of Baltimore County invites Suppliers to bid on the **Supply and Installation of HVAC Filters** for Baltimore County Public Schools, **Solicitation Number MWE-847-15**. Procurement questions can be emailed to Melanie Webster at **mwebster@bcps.org**. You must identify the bid number, within your email message. Verbal questions will not be taken.

Suppliers proposing to bid may secure a set of solicitation documents after 2:00 P.M. (EST), on or after **May 8, 2015**. Solicitation documents can be obtained electronically by emailing request to: **mwebster@bcps.org**. Email requests MUST include bidders' corporate address, phone number, fax number, and representatives contact name. Additionally, hard copy contract documents are available for pickup at the Office of Purchasing, 6901 Charles Street, Building "E", 1st Floor, Towson, Maryland 21204. There is no cost for the solicitation.

A pre-bid meeting is scheduled for **May 21, 2015, 2:00 P.M.**, in the Conference Room at Baltimore County Public Schools, 6901 Charles Street, Building "E", 1st Floor, Towson, Maryland 21204.

Sealed bids will be received until **June 4, 2015, no later than 2:00 P.M.** in the Office of Purchasing at Baltimore County Public Schools Office of Purchasing, located at 6901 Charles Street, Building "E", 1st Floor, Towson, Maryland 21204. A public bid opening will be held approximately 10 minutes after the due date and time for this solicitation.

The contractor or suppliers who provide materials, supplies, equipment, and/or services for the above bid shall attempt to achieve 14% participation of Minority Business and/or Small Business Enterprise organizations in response to the Board of Education's goal for economic development. Certified Minority Business Enterprises and Small Business Enterprises are encouraged to respond to these solicitations.

Bidders shall include minority and small business enterprise material as provided herein with their proposal. Bidders failing to submit the minority and small business enterprise material as provided herein, including the Small and Minority Business Enterprise Utilization Affidavit may result in the bid being determined non-responsive.

The Board of Education of Baltimore County reserves the right to reject any or all proposals and to waive informalities.

By Order of the Board of Education of Baltimore County

AmericanAirFilter MEGApleat™ M8

Extended Surface Pleated Panel Filter

Longest-Lasting MERV 8 Pleated Filter

Patent-Pending Filter Design

Better Air is Our Business®

AAF
INTERNATIONAL

AmericanAirFilter MEGApleat™ M8

Extended Surface Pleated Panel Filter

- Highest dust holding capacity (DHC) – longest life
- Highest breach strength – strongest construction
- Lower operating resistance saves energy
- Guaranteed consistent performance – independent, third-party testing
- Patent-pending filter design
- Heavy-duty, galvanized expanded metal support grid
- Moisture-resistant adhesive
- Available in 1", 2", and 4" models
- MERV 8

AAF is proud to introduce the longest-lasting MERV 8 pleated panel filter in the market – the MEGApleat M8. Manufactured with a heavy-duty, galvanized expanded metal support grid and moisture-resistant adhesive, the MEGApleat M8 filter is the strongest MERV 8 pleated filter available. The MEGApleat M8 filter's low initial resistance requires less energy consumption, resulting in lower operating costs and energy savings.

AAF Guarantee

Unlike other MERV 8 filters where there is significant performance variability from filter to filter, the MEGApleat M8 filter is designed for the most performance consistency. AAF is so confident about the performance, we guarantee the MEGApleat M8 filter to last longer, be stronger, be more cost efficient than any competitor's MERV 8 pleated filter, and perform to MERV 8 standards throughout the filter life. Contact your local sales representative for guarantee details.

Applications

The MEGApleat M8 filter is designed for use in commercial, industrial, and institutional applications. MEGApleat M8 filters are ideal for turbulent airflow, heavy loading, and high-moisture systems. MEGApleat M8 filters are directly interchangeable with disposable panel filters, media pads in metal frames, permanent filters, or lower performing competitive filters used in built-up filter banks and side access systems. No modifications are necessary to frames or latches. MEGApleat M8 is also an excellent primary filter to prevent dust build-up on heating and cooling coils, fans, and ductwork, or as a prefilter for higher efficiency filters.

Media

Uniform size virgin fibers are assembled in closely controlled blends to create a media that is consistent in performance. MEGApleat M8 filters promote maximum airflow and dust holding capacity (DHC). MEGApleat M8 filters load at a slower rate increasing the life of the filter. Lower pressure drop and higher DHC means reductions in energy consumption and operating costs. MEGApleat M8 filters are rated MERV 8.

Looking closely at a leading competitor's media, notice the inconsistent fiber sizes and binder that can lead to inconsistent performance and variability.

MEGApleat™ M8 filter media is free of the variations seen in competitor filters, ensuring consistency over the life of the filter.

Premium Construction and Performance

Designed to meet the demands of the toughest applications, the MEGApleat M8 filter offers a totally unitized, die-cut box, beverage board frame with double thickness in the perimeter wall. The MEGApleat M8 filter is extremely strong and durable under difficult operating conditions, including high-moisture applications. MEGApleat M8 filter also has a heavy-duty, galvanized expanded metal pleat support grid laminated to the media pack to increase rigidity and help maintain proper spacing between pleats. Proper pleat spacing ensures maximum efficiency, low resistance, and maximizes DHC.

The media pack is bonded to the frame at all points of contact using moisture-resistant adhesive. This bonding prevents dirty air bypass and promotes even airflow through the media pack. The MEGApleat M8 filter construction process results in a filter which is very stable, with no racking or vibration of the pleats under normal airflow. Pleat stability minimizes the chances of captured particulate shaking loose and re-entering the airstream.

Certified Performance – Insist on Independent Testing

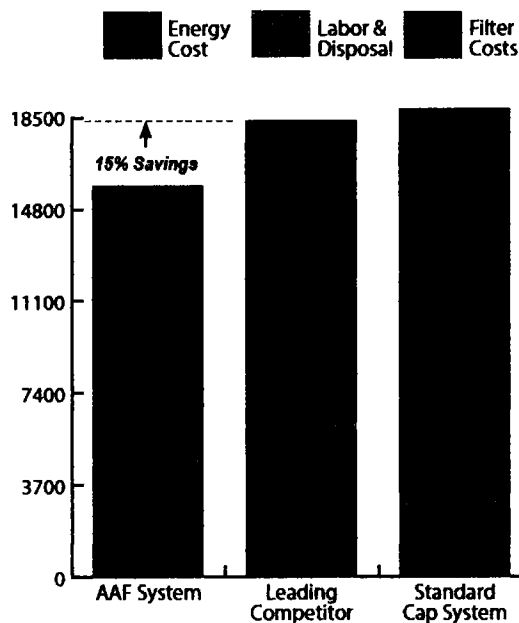

With the MEGApleat M8 filter, MERV 8 classification is documented with test results from an independent, third-party test laboratory. Your sales representative has the results for you to review, just ask. The MEGApleat M8 filter gives you the performance our competitors promise but don't deliver.

Total Systems Solutions

Looking at each stage of filtration is critical to optimizing the efficiency of a HVAC system. When employing a 3-stage system, a MEGApleat M8 filter combined with a VariCel® VXL filter and a MEGAcel™ I HEPA filter will minimize energy usage and cost. When combined with these filters, the MEGApleat M8 filter offers an environmentally sustainable solution that can help you qualify for LEED® Energy and Atmosphere credits, by reducing the fan energy usage associated with HVAC systems.

When a MEGApleat M8 filter is used in combination with other AAF filters, your total cost of ownership is less than competitive systems, as seen in the graph below.

Analysis based on a 3-stage filter system, running 20,000 CFM, over a 2 year time period. Energy costs based on the national average of 0.08 \$/kW-hr. Filter selection was based on the most energy efficient filters available.

AmericanAirFilter

MEGApleat™ M8

(1) Additional sizes available (MEGApleat M8):

12x12x1 14x25x1 16x16x1 18x25x1 12x20x2 15x20x2 16x24x2 25x25x2
14x20x1 15x20x1 18x24x1 25x25x1 14x25x2 16x16x2 18x25x2

(2) Other standard size and special size MEGApleat M8 filters are available in handmade construction assembled from four beverage board strips. The filters are stapled in each corner with the pleated media pack bonded to the inside of the frame. Special sizes are available in the same construction, or can be made from standard size filters which are cut down and "capped" with beverage board strips.

(3) Width and height dimensions are interchangeable. All MEGApleat M8 filters may be installed with the pleats either vertical or horizontal.

Red B Bull

Page 1 of 3

Features:

Available in economy, standard and high capacity versions

26 point high wet strength clay coated kraft board die cut frame

Radial pleat design

Media is 100% synthetic fibers - water and bacteria resistant

Media bonded to expanded metal support grid using water resistant adhesive

Media bonded to frame using water resistant adhesive

Also available
MERV 8 - Series M8,
MERV 11 - Series M11
and Series SS with self supporting media element

UL Class II rated as per UL 900 standard

AIRFLOW PLEAT

Economy, Standard and High Capacity medium efficiency pleated panel filters

AIRFLOW PLEAT extended surface pleated panel filters are designed for use in air filtration systems and equipment, as stand alone basic efficiency products or as pre-filters to higher efficiency bag, rigid box or cell type filter.

The 26 point clay coated, kraft-board die cut frame, diagonal and horizontal support members, radial wedge design and expanded metal media support create one of the most rigid filters of its type in the industry.

The media pack, comprised of 100% polypropylene fibers, is bonded to the inside perimeter of the enclosure frame by a moisture resistant adhesive, providing a continuous and positive seal.

The standard offering is rated by Underwriters Laboratories as Class II, per UL Standard 900.

The AIRFLOW PLEAT is designed so as to work suitably within built up filter banks and/or side access systems. Available in nominal 1", 2" and 4" depths and 50 standard size offerings, this product is designed to fit most industrial and commercial applications with little or no system modification.

Rigid construction, extended surface and long service life are features and benefits which make the AIRFLOW PLEAT an excellent option for meeting the requirements today's filtration market.

AIRFLOW PAK

Extended surface self-supported rigid box filter

AIRFLOW PAK extended surface self-supported rigid box filters are designed for use in air filtration systems and equipment where medium to high efficiency filtration is required. Available in a wide variety of standard sizes and depths, the AIRFLOW PAK provides optimal performance in variable air volume systems.

Galvanized frame construction, diagonal metal support stabilizers, injection molded plastic media separators and expanded metal media support create one of the most rigid filters of its type in the industry.

The media pack, comprised of 100% polypropylene fibers, is bonded to the inside perimeter of the enclosure frame by a moisture resistant adhesive, providing a continuous and positive seal.

The standard offering is rated by Underwriters Laboratories as Class II, per UL Standard 900.

The AIRFLOW PAK is designed so as to work suitably within built up filter banks and/or side access systems. The standard offering is box-type in construction. Peripheral headers, (7/8") are available as an option.

Rigid construction, extended surface, low initial pressure drop measured in inches w.g., long service life and savings in energy costs are features and benefits which make the AIRFLOW PAK an excellent option for meeting the requirements of medium to high efficiency filtration.

Features:

Electrogalvanized headers and internal pocket supports

100% synthetic polypropylene media

Sonically sealed pocket edges, ends and flutes

Nominal pocket depths range from 12" to 36"

Available in 50%, 65%, 85%, and 95% efficiencies per ASHRAE 52.1

Available in MERV 11, 12, 13 and 14 efficiencies per ASHRAE 52.2

UL Class II rated as per UL 900 standard, also available in UL 900 Class 1

AIRFLOW BAG

Extended surface non-supported bag filter

AIRFLOW BAG, extended surface non-supported bag filters are designed for use in air filtration systems and equipment where medium to high efficiency filtration is required. Available in a wide variety of standard sizes, face dimensions, pocket number and depth, the AIRFLOW BAG provides optimal performance in air handling systems where the air flow is constant.

Galvanized metal frame, (header) and internal pocket support retainers, (j-channels) provide strength and rigidity to this product.

The pockets, comprised of 100% polypropylene fibers, are secured within the inside perimeter of the header by a crimping process between individual j-channels. Each pocket is sonically sealed along the outside edges to prevent bypass.

The standard offering is rated by Underwriters Laboratories as Class II, per UL Standard 900. Class I rated products are available as an option.

The AIRFLOW BAG is designed so as to work suitably within built up filter banks and/or side access systems. The standard header thickness is 7/8". A Cambridge style header, (1 1/8") is available as an option.

Rigid construction, extended surface, long service life and savings in energy costs are features and benefits which make the AIRFLOW PAK an excellent option for meeting the requirements of medium to high efficiency filtration.
